How to find the ACFR

The Australian Centre for Field Robotics is located in the Rose Street Building, J04 in the Engineering Precinct of the Darlington Campus of The University of Sydney. The nearest entrance gate is Sydney University Gate 2, off Shepherd St.

For a larger map showing the whole campus please go to: 
http://db.auth.usyd.edu.au/directories/map/largemap00a.html

**By Taxi**
If you are arriving by taxi then please ask them to take you to the corner of Calder Rd & Shepherd St, Darlington (near the Seymour Centre/University of Sydney). Enter through gate 2, go across the carpark and down the drive on the left side of the Rose Street Building (next to the grass area). Follow the drive around to the right where you will see the glass entryway.

**By Car**
Go out of the CBD along George Street/Broadway/Parramatta Road and turn left into City Road. Passing Victoria Park on your right. Turn left onto Cleveland and right into Shepherd Street, Gate 2. There is a multi-story car park on the corner of Cleveland and Shepherd, next to the Seymour Centre. Alternatively, there is car parking next to the Rose Street building. Both are accessed from Shepherd St.

**By Train**
The closest train station, as seen on the top map, is Redfern station. From Redfern station, it is an 800m walk to ACFR. Google Map instructions for this walk can be found here.

**Building Access**
The building has secure access. Use the phone by the front door to call the extension of the person you are visiting or Reception on ext. 17126.
